

Hog 4 PC

Three Little Pigs

#TBD

Hog 4 PC brings the functionality of Hog 4 lighting consoles to your personal computer, allowing you to view and edit Hog 4 OS show files. Unlock Hog 4 PC as a budget-friendly stand-alone controller by adding a Hoglet 4, USB Widgets, or an ETCnomad USB key. Hog 4 PC is also an ideal backup solution for Hog 4 consoles.

Features

- Robust Hog 4 OS operating system on your Windows PC
- Supports Hoglet and multiple USB Master Wings, Playback Wings, and MiniWings
- Unlimited number of simultaneous crossfades
- Hog 4 PC software is compatible as a remote focus device for Hog 4 family consoles

Connectivity

- Local output processing: 12x universes (6144 output channels)
- Expandable DMX-512 outputs via USB DMX Widgets
- Local Art-Net and E1.31/sACN outputs via PC Ethernet port
- Unlimited DMX-512, Art-Net and E1.31/sACN universes via HogNet-connected DP8Ks
- MIDI in/out/thru supporting MIDI messages, MIDI Show Control, and MIDI Time Code
- Expandable MIDI and LTC inputs via USB MIDI/LTC

Widgets
MIDI also supported via PC sound card or USB device
Connectivity with visualizers via Fixture-Net (Art-Net or
E1.31/sACN, unrestricted by local output capacity)
OSC (Open Sound Control) for remote control and
integration
Supports USB playback and expansion Wings
