

SolaHyBeam 2000

SolaHybeam Series

#H7010035

Built for the largest lighting applications, the flagship SolaHyBeam 2000 luminaire offers high-intensity output that can outperform even the most powerful 1500W arc-source instruments. The SolaHyBeam 2000 uses a 600W Bright White LED engine, multiple color and effects systems. Combined with High End's wash/beam optical design and an incredibly versatile zoom range, it results in revolutionary new lighting looks.

Features

- Ultra-Bright White LED Engine
- 600W Ultra-Bright engine produces 26,000 field lumens
- 7°-38° Beam Zoom and 10°-46° Wash Zoom
- CMY/CTO – Linear color mixing system
- 7 position replaceable Color Wheel
- Framing system for total control of beam shaping
- Iris, Light Frost, Heavy Wash,
- 7-position plus open Rotating Gobo Wheel
- Patented Lens Defogger
