Every detail of the Theatrixx Totem has been designed to ensure maximal impact and delivery of your message in a clear and appealing way. The Theatrixx Totem is a standalone, fully autonomous digital signage display. It can be used either as a free-standing structure (with optional locking casters) or as a digital power installed to a wall or suspended from the ceiling in any orientation. Its direct-view LED display ensures readability even in bright environments, and a strong plexiglass cover protects its surface against long term damage. Each Totem can be connected to WiFi and loaded with new content with just a few clicks. A user-friendly PC application allows the management of your fleet of Totems on a local network, and creating new slides is as easy as designing a PowerPoint slide show. The software also provides detailed logging such as play counts, easily exportable to Excel. Totems can even be controlled from iOS or Android devices, and an optional, subscription-based cloud platform allows the handling of a larger fleet of device from anywhere in the world.

#XVA-2.5S-IN

Pixel

Packaging
RGB SMD 3-in1 LED

Pixel Pitch
2.571 mm

Mechanical

Cabinet resolution
Cabinet dimensions
596 x 1964 mm

Cabinet weight
36 kg

Cabinet thickness
39 mm (excl. control box and base)

Module resolution
112 x 84 px

Module dimensions
288 x 216 mm

Installation
Wall mount, floor stand

Cooling
Passive

Optical

Brightness
>800 nits

Lifespan
50 000 hours
Color Temp.  6 500K

Horizontal Viewing Angle  160°

Vertical Viewing Angle  160°

Processing

Driving Mode  TBC

Grayscale depth  TBC

Refresh Rate  Up to 4 000 Hz

Video Frame Rate  60 Hz

Control System  Novastar T6

Environmental

Protection Rating  IP40

Operating Temp.  -10°C @ 50°C
Relative Humidity
10-90% RH

Warranty
2 years

Power Requirements

Max. Power Consumption
600W/unit

Average Power Consumption
210W/unit

Input Voltage
100-240V, 50-60Hz auto-ranging
