

# SD-112A

Theatrical

## #SD112A

Built to withstand the daily hazards of touring, the SD-112A Theatrical electrical Distribution is made to minimize the technical back stage area by taking only 6 rackmount units. The front panel is cut from a thick 3/16" aluminum sheet and is fixed to a robust steel chassis with rear support. All circuit breakers can be installed recessed with the addition of acrylic spacers for protection (optional). This type of power distribution is designed for audio, lighting and stage power applications. It offers 4 separate P&S 30A 120/208V 3 phases (C5) connectors over a 100A 3 phases Main Breaker. Panel mount terminals and neon indicators allow quick and easy voltage checks.

### Input

#### Connector

CAM In/Thru – Straight or Ground/Neutral Reversed

#### Breaker

100A 120/208V 3 phases Main Breaker

### Outputs

#### Connectors

4x PS530R9 (C5) Receptacles

### Breakers

4x 30A 120/208V Circuits

## Features

### Phase Presence Indicators

1x neon light per input phase

### Voltage Metering Jacks

1x fused tip jack per input phase + 1x unfused tip jack on Neutral

### Enclosure construction

Robust steel housing

## Dimensions

### Height

266.70 mm (10.50?) – 6RU

### Depth

538.00 mm (21.18?)

### Width

482.60 mm (19.00?)
