

SP-36A-L2130

Theatritx

#SP36A-L2130

The Theatritx Small Pack Series was developed to fulfill the needs of small installations of rack mounted audio modules. The compact size of this two rackmount unit distribution system and its reduced depth allows it to be installed at the bottom of an amplification rack with minimal interference on internal hook-up. The front panel is cut from a thick 3/16" aluminum sheet and is fixed to a robust steel chassis. This product can also be adapted for other types of applications. This unit can be used in conjunction with the standard CD112B, LD236B or any custom built distro with TL5 30A 120/208V 3 phases outputs.

Input

Connector

L21-30 Flanged Inlet

Breaker

No

Thru

Connector

No

Outputs

Connectors (Front

Panel)	1x 5-20 Duplex
Connectors (Back Panel)	5x 5-20 Duplex
Breakers	6x 20A 120V Circuits
Breaker Protector	Yes

Features

Enclosure construction	Robust steel housing
