

MC400CC

Theatrixx

#CD-MC400CC

Built to withstand the daily hazards of touring, the MC400CC Theatrixx Motor Power Distribution is made to minimize the technical back stage area by taking only three rackmount units. The front panel is cut from a thick 3/16" aluminum sheet and is fixed to a robust steel chassis with rear support. All circuit breakers are installed recessed with the addition of acrylic spacers for protection. This type of power distribution is designed for low voltage control motors. It offers 4 separate channels over 4 Socapex 7pins. LED indicators allow quick and easy system status reading It also features an automatic phase reverse correction system for seamless operation.

Input	Connector	
		50A California StyleInput (CS8375)
	Breaker	
		No
Outputs	Connectors	
		4x Socapex 7 pins
