MC400DC

Theatrixx

#CD-MC400DC

Built to withstand the daily hazards of touring, the MC400DC Theatrixx Motor Power Distribution is made to minimize the technical back stage area by taking only three rackmount units. The front panel is cut from a thick 3/16" aluminum sheet and is fixed to a robust steel chassis with rear support. All circuit breakers are installed recessed with the addition of acrylic spacers for protection. This type of power distribution is designed for direct control motors. It offers 4 separate channels over 1 Socapex 19pins. LED indicators allow quick and easy system status reading It also features an automatic phase reverse correction system for seamless operation.
