Theatrixx

#VD126X

Built to withstand the daily hazards of touring, this VD-126X Theatrixx Electrical Distribution features an impressive amount of options for such a small format. The front panel is cut from a thick 3/16" aluminum sheet and is fixed to a robust steel chassis with rear support. All circuit breakers can be installed recessed with the addition of acrylic spacers for protection (optional). This type of power distribution is specifically designed to be used with xVision Video panels. It offers 12 separate 208V** circuits on 2 X Socapex connectors and 2 X 20A Edison Duplex (5-20) over a 100A 3 phases Main Breaker. Each Circuit 5 & 6 of the Socapex is doubled on a XVT3 Female connector. Panel mount terminals and neon indicators allow quick and easy voltage checks. It also features a 1 to 3 phases selection located on top under an easy access trap door.
