

SolaFrame 2000

SolaFrame Series

#H7010027

Combines unprecedented beam control and exclusive new effects in a high-intensity automated spot fixture. SolaFrame 2000 adds High End's powerful Framing Shutter System to the SolaSpot 2000. The result is a powerful automated spot fixture with precise control and sizzling effects. With its 600W Bright White LED source and packed full of features, the SolaFrame 2000 can hold its own on the biggest stages, yet gives designers total control over placement.
