

SolaFrame 3000

SolaFrame Series

#2581A1200

Meet SolaFrame 3000, the new flagship luminaire in High End Systems' Sola Series range. The SolaFrame 3000 combines unprecedented light output from its 1000 watt Ultra-Bright White LED engine with a limitless palette of effects and color possibilities. Boasting more than 37,000 lumen output, the SolaFrame 3000 is the first automated LED luminaire to rival and even exceed the output of the most powerful arc lamp fixtures. The fixture is also available in a Hi-Fidelity version with incredibly accurate color rendering.
