

MC800CC

Theatrx

#CD-MC800CC

Built to withstand the daily hazards of touring, the MC800CC Theatrx Motor Power Distribution is made to minimize the technical back stage area by taking only three rackmount units. The front panel is cut from a thick 3/16" aluminum sheet and is fixed to a robust steel chassis with rear support. All circuit breakers are installed recessed with the addition of acrylic spacers for protection. This type of power distribution is designed for low voltage control motors. It offers 8 separate channels over 8 Socapex 7pins. LED indicators allow quick and easy system status reading. It also features an automatic phase reverse correction system for seamless operation.

Input

Connector

50A California Style Input (CS8375)

Breaker

No

Outputs

Connectors

8x Socapex 7 pins

	Breakers	4x 16A 208V Breakers (High in Rush)
Features	Control	Female VEAM 25 pins
	Phase Reverse Correction	Automatic
	Emergency Stop	Yes
	Status Indicator	Yes
	Enclosure construction	Robust steel housing
Dimensions	Height	133.35 mm (5.25?) – 3RU
	Depth	513.00 mm (20.20?)
	Width	482.60 mm (19.00?)
