Stay connected on the move.
From underground mining to on-the-scene news reporting to military operations, we offer portable and stationary electric cable reels to meet all your communication needs. We have thousands of standard reels – or can create custom designs – that are built strong to last long, require minimal maintenance, and provide a lifetime of value.

Our portable reels allow for easy setup and tear down with an ergonomic handle design, while our storage reels are stackable for easy transport. All of our AV and AVX reels meet international standards and are designed and constructed specifically for your business – never retrofitted to the job – so you can expect unsurpassed fit and function.

Designed for:
- Production and recording facilities
- Live events and concerts
- Mobile broadcast units
- Satellite and cable companies
- Mining operations
- Military communications
- Pipeline inspection

Uses:
- Video inspection
- Audio / Video / Broadcast
- Live electric cable
- Fiber optic cable
- Cable storage

With slotted divider discs.

The primary advantage of a Series AVD is the addition of a slotted divider disc within the reel spool. This feature provides a convenient way for a user to have unobstructed access to both cable connector ends. Making it easy to pull off any length of cable and still have access to both connectors. There is no need to pull the entire length of cable off the reel before use.

- Communication, broadcast, and pro-audio applications.
- Rugged steel frame and aluminum spool construction.
- Black, non-reflective matte finish.
- Equipped with two durable rubber twist ties for cable ends.
- Slotted divider disc provides 2” wide space for storage of short cable.
- Frame clips allow stacking of reels.
- Adjustable cam-lock drag brake.
- Optional heavy-duty, locking caster wheels available.
- Pull handle available for AVD-2 and AVD-3 (Part No. 9949.0500).
- AVD-3 only — side-mounted punchable connector panels are standard.
